A Pediatric Nurse Practitioner (PNP) is a nurse practitioner who specializes in the care of newborns, infants, toddlers, pre-schoolers, school-aged children, adolescents, and young adults. They have in-depth knowledge and experience in pediatric primary health care, including well-child care and prevention/management of common pediatric acute illnesses and chronic conditions. This care is provided to support the optimal health of children within the context of their family, community, and environmental setting.

A mom first, Priscilla's family encouraged her to go into the field of pediatric nursing. She would advise others to dream big, and reach for the stars. She attributes her success to being teachable and having the desire to continue to grow and not stay stagnant.
