The Beginning of a Revolution!

EHCC Network Hospitals provide new-fangled treatment modalities to Rajasthan and the surrounding areas so residents can access Avant-grade care around the clock. They have partnered with Rungta Multi Speciality hospital and are working in association with several hospitals to achieve this goal. The hospital has the support of nationally and globally recognized specialists who follow the highest standards of clinical excellence, guaranteeing patients a treatment experience on par with the best in the world. Their commitment to professional care begins with a group of doctors and other medical specialists who are current on developments in their disciplines. It is bolstered by teams of nurses and other paramedical professionals who have completed rigorous training programs. Their priority is to open additional facilities like this to serve people worldwide who require comprehensive care. Their dedication to helping people is unwavering. They will do whatever it takes to accommodate your request for an appointment, answer any questions, educate you as a patient, and point you toward additional healthcare services. The classic saying, "Prevention is always better," is repeated often throughout their medical facility. Their physicians have created a range of Health Checks to meet the specific needs of individuals within a family.

All about RGHS & CGHS Scheme

Here is a detailed overview of the CGHS and RGHS programs that the government offers to its workers. There are several hospitals offering treatment through these schemes, but they somehow manage to trick the patients and get the money. EHCC Network Hospital stands out as the top choice for patients seeking the finest CGHS & [RGHS Hospital in Jaipur](#).

As their names imply, both plans provide medical coverage, with Rajasthan's being a state-run program and the Central one being a federally-run program. While both schemes aim to make quality medical care more accessible and affordable to the public, they are very different regarding coverage, eligibility, and how they are categorized. The hospital's primary mission is to serve the people of India and the recipients of the RGHS and CGHS health insurance programs by providing them with excellent medical treatment. All kinds of medical care, including those covered by RGHS and CGHS, are available at their establishment.

The EHCC Network Hospital offers patients who are covered under RGHS or CGHS scheme, the top-notch care they deserve from Hospital's highly trained consultants and surgeons, and other medical professionals. If one wants to get complete information about these schemes, visit the respective links:
