

L'atelier D'formulation Partners With Environpure Products

Will Distribute Major Might to North American Markets

San Juan, Puerto Rico Nov 16, 2022 ([Issuewire.com](https://www.issuewire.com)) - L'atelier D'formulation Inc ([LATELIER](https://www.latelierdformulationenviropureproducts.com)) announces a strategic distribution partnership with Environpure Products of Rome, NY to distribute their 4 hydrophobic and hydrophilic solutions: **Major Might**, a hydrophilic solution that breaks down the hydrocarbon molecules dispersed water; **Germ Jolt**, a formulation that has the power to break the hydrocarbon strains which hold together encapsulated viruses; **Tick-Put-Out**, kills ticks upon contact thus inhibiting human anthropoid borne diseases which result from encapsulated bacteria such as Lyme disease; and **Germinator Bactericide**, which inhibits the presence of E-coli, VRE and MSRA in vegetables and in interior and exterior surroundings.

The [Major Might product line](#) is available in various configurations ranging from 55-gallon drums for industrial applications down to 1-gallon, 32-oz, and 4-oz bottles. Originally commissioned for the US Army in 2001 to convert used diesel into water, Major Might was found to reduce the transportation costs of used fuel containers to 10 % of the cost. The application of Major Might over wildfires and other Class A fires requires much less water than is usually recommended for the integration of different combustibles. Major Might has been shown to eliminate pathogens found within water sources, which have been linked to various stomach cancers.

About L'atelier D'formulation Inc: Founded in 2001, L'atelier D'formulation Inc blends 4 hydrophobic and hydrophilic solutions which own the faculty of breaking the hydrocarbon molecules in dispersed water without affecting humans or animals' inner organs should they be swallowed or ingested regularly, even if drinking from a local contaminated water source.
