

Listen Out To the Newest Refreshing Release of 'Milky Way' By Talented OL30

The blend between pop and EDM genres can be seen in the refreshing new track 'Milky Way' by OL30 which impresses the fans and creates a buzz in the industry.

Günzburg, Nov 24, 2022 ([Issuewire.com](https://www.issuewire.com)) - Blending two different genres and putting the exciting element into making one interesting and unique track requires versatility and talent which is decreasing in the modern music scene. However, there are some artists that continue to prove their artistic talent. One of them is the promising artist **OL30** who has just released a new track called, ‘

[Milky Way](#)'. the song is already creating quite a buzz in the industry for its upbeat composition and quirky lyrics that at the same time reflect elements of pop music and EDM.

The artist **OL30** has always been passionate about music since childhood. The musician started playing musical instruments at a very early age and that reflects directly in the track '**Milky Way**'. it is the kind of song that deserves to be on everyone's playlists and once you start to play it, you will not be able to resist putting it on the repeat list. It showcases the talent and caliber of the artist who has single-handedly managed to create, compose, write and sing in the track. The track has some elements of pop music, especially quirky music but definitely weighs toward the EDM genre more. The colorful beats and upbeat sound are enough to take any listener directly to the dance floor. The composition of the track is truly the soul of the musical number.

Listeners will be able to hear the music on Spotify, Apple Music, Soundcloud, Deezer, and Amazon Music along with the artist's previous praiseworthy tracks like 'Cold World, and 'Skywalker'. Listeners can also follow him on TikTok for more insights.
