Mumbai, Maharashtra Nov 24, 2022 ([Issuewire.com](https://www.issuewire.com)) - Nete (pronounced as Netty) is an acronym for Not Everything To Everyone. Nete.in is an address where shoppers have everything filtered, it's not every item from every designer, and nor is it every designer. With the rise of sustainable, conscious, and eco-friendly brands, it has never been easier to find just what you're looking for. When curating, we draw inspiration from the details of everyday living and all that surrounds us, designs that appeal to a customer's intelligence, creativity, and individuality; creating a unique mix of apparel, accessories, and homewares for sustainable living. A carefully curated product range, fit for all seasons, making sure it's unique and one-of-a-kind.

Nete has been created for the avid shopper; one that is conscious of their consumption, thoughtful while shopping, supports sustainable fashion and artisanal processes, and values zero waste and fair trade practices. We work with slow fashion brands with similar and complementary values, aesthetics, and principals. Our homegrown brands are from across India - Itr, Doodlage, The Pot Plant, Three, The Summer House, Bennch, Mati, Aion, Reistor, ANS, Enso, Khumanthem, 28o1, O'Frid a, The Jodi Life, Basal Studio, Pain, Khajoor, Slate, Teori, Sobo Living and many more.
