

New YouTube Channel Captures the Fastest Growing Chinatown on the Planet

The team behind ChinatownVegas.com launch a new YouTube Channel that will visually showcase the vibrant and fast-growing Las Vegas tourist destination

Las Vegas, Nevada Nov 29, 2022 (Issuewire.com) - The new free **Youtube Channel**, [Chinatown Vegas](#) was created to capture the fastest-growing [Chinatown](#) in North America.

With more than 150+ restaurants, 40-foot reflexology and massage spas, 6 Asian Supermarkets, more

than 10 Asian churches, martial art schools, a marijuana dispensary, a shooting range, and escape rooms - it's hard to beat this neighborhood.

Chinese-born Sherry Tsai, one of the website managers, had this to say *"Every day more taxis, more Lyft, more Uber, more pedestrians more jam-packed busses, with 1000s and 1000's of locals and tourists packing each shop - there really is no Chinatown anywhere like this"*

In addition to the hundreds of shops lined up pretty much all in a row all along Spring Mountain Road, the main strip of Chinatown, poor walking, and harsh weather makes navigating more challenging than in other cities.

"We feel it will be handy for tourists and locals alike to help prepare, research and plan their visit to Chinatown and make it amazing". "Visually, through video, we hope to capture and show Chinatown Las Vegas in a new light".
