

Pool Boys Once Again Put Up a Charismatic Performance in the Rap Hit 'Clubhouse'

The iconic duo, Pool Boys, has put up a striking performance in their new hit "Clubhouse"- a rejuvenating new rap song that has beguiled all listeners.

Atlanta, Nov 7, 2022 ([IssueWire.com](https://www.issuewire.com)) - Bringing about a long-coveted freshness into the world of hip-hop music and rap, the spectacular duo, Dre P. and Markice MOORE, who go by the name **Pool Boys**, have dropped their new song "**Clubhouse**" and it is already leaving its mark on the listeners. The song is a no-nonsense track that begins with a telephonic voice which gives way to the trippy rap lyrics and gives the song a distortion that adds to its charm. The lyrics of the music portray the deep taboo fetish that has been a pattern in several rap artists of the century. The unhinged free flow of rap follows a stream-of-consciousness style that exudes the raw emotions of the singers.

In the song "["Clubhouse"](#), from one bar to the next, the **Pool Boys** keep their story honest and personal, captivating the attention of the listeners throughout the two minutes and forty-seven seconds of the song. The laid-back style of the singers with its gradually and subtly increasing tempo highlights the versatility of the singers' voices and keeps the wave-like flow of lyrics and emotions natural. They exhibit inspiration from rappers like Jay -Z, Nelly, and 50 Cent, but the music they produce is a result purely of their own creative genius.

With tracks like "B.A.S" and "Buddy Pass" on their musical records, it is no wonder that "Clubhouse" turned out to be a sublime perfection. The addictive groove gets the audience in a trance and has every quality that keeps the audience hooked. To stream this amazing song and more by them, log into [Spotify](#).
