

QBurst expands presence in Bangalore

Bengaluru, Karnataka Nov 30, 2022 ([Issuewire.com](https://www.issuewire.com)) - QBurst, a full-service software development company, has opened a new office at Prestige Shantiniketan, Whitefield, Bangalore.

QBurst COO Binu Dasappan inaugurated the facility in the presence of Senior Vice President Suresh Nair, Vice President Jimmy Kappen, Associate Vice President QA Joby Raj, Associate Vice President Technology Sajith Devarajan, and Associate Vice President Engineering Sunil Kumar.

QBurst has been present in the city since 2018. The company's new 200-seat office will help fulfill its commitment to its growing local and international client base, according to Deen Edger, who heads Bangalore operations. "Our expanded capability center would help startups and enterprises implement the latest technologies for their product development initiatives. We would also be adding skilled engineers in new-age technologies which would help us ramp up for our local and international customer requirements," said Deen Edger.

[QBurst](https://www.issuewire.com), founded in 2004, focuses on driving the next generation of digital transformation. It offers a broad range of services around mobile and web development, big data analytics, artificial intelligence, machine learning, cloud, user experience design, DevOps, and quality assurance.
