[Lash lift Pymble](#) is also a most sought-after beauty solution for women. A delighted customer who got a lash lift recently left a testimonial that says, "No matter how much mascara I lay on, my lashes would fall. And my lashes definitely needed an extra boost. When I was searching for lash lift Pymble I came upon aesthetic by Reese and booked in. After an excellent job done I am sure to return to Reese for all the consultation on my beauty regime".

Lash Lift is a kind of curling technique used to curl your lash temporarily for a period of 4 to 6 weeks. Reese warns, "After a lash lift treatment your lash should not get in touch with water for 24 hours for the procedure to set in. After that you can enjoy the results of the lash lift". For the post-lash procedure, Reese recommends lashing oils to keep your lashes shiny and nourished at the same time.
