Abu Zabi, United Arab Emirates Nov 17, 2022 ([IssueWire.com](https://www.issuewire.com)) - Sheikh Zayed Grand Mosque Centre launches an interactive e-platform titled the "Land of Tolerance", coinciding with the "International Day for Tolerance", which falls on November 16 each year.

The platform uses innovative and artistic techniques to create a smooth user experience, supported by images and animation that enrich the platform's content allowing all segments of the community, regardless of culture, to browse and access the platform using computers or smart devices.

the "Land of Tolerance" platform takes the browser on a unique journey across Sheikh Zayed Grand Mosque, a leading national and religious landmark, as well as a unique architectural reference of Islamic art and architecture that sets itself apart from other houses of worship and cultural and tourist attractions across the world.

We welcome the nations of the world to enjoy an exceptional experience and embark on an interactive journey by visiting the Centre's website. (<https://www.szgmc.gov.ae>)
