

## **Suguru Ohira, MD, PhD, a Cardiothoracic Surgeon with Westchester Medical Center**

Get to know Cardiothoracic Surgeon Dr. Suguru Ohira, who serves patients in Valhalla, New York.

**New York City, New York Nov 9, 2022 ([Issuewire.com](https://www.issuewire.com))** - An exceptional cardiothoracic surgeon, Dr. Ohira is in practice at Westchester Medical Center in Valhalla, New York. His clinical interests include coronary artery bypass grafting; valve surgery; surgery for the thoracic aorta and pulmonary artery; as well as surgery for heart failure, including cardiac transplantation, ventricular assist devices, and other mechanical circulatory support devices.

Founded in 1917, Westchester Medical Center is the regional base of tertiary and quaternary care and is the primary referral facility for other hospitals, serving as a lifeline for millions of people in the Hudson Valley. Its mission includes providing the highest quality care for all residents of the Hudson Valley, regardless of their ability to pay, and providing a network that ensures access to a coordinated continuum of care for its community.

With a broad educational background, Dr. Ohira received his medical degree from the Kyoto Prefectural University of Medicine in Japan, where he also received his surgical training. He also received his Doctor of Philosophy degree (Ph.D.) in Medicine from the Graduate School of Medicine, Kyoto Prefectural University of Medicine, before completing a fellowship in cardiothoracic surgery at Thomas Jefferson University Hospital, with broad exposure to complex cardiac surgical cases and surgical management of heart failure.

On a professional level, he is an active member of the International Society of Heart and Lung Transplantation, the Society of Thoracic Surgeons, the Japanese Society of Cardiovascular Surgery, the Japanese Association for Thoracic Surgery, the Japanese Society for Vascular Surgery, and the Japan Surgical Society. He has published on coronary artery bypass grafting, valve repair, and valve replacement procedures, aortic dissection, as well as the surgical treatment of heart failure.

As for his academic appointments, Dr. Ohira serves as a Clinical Associate Professor of Surgery at the New York Medical College.

Cardiothoracic surgery is the field of medicine involved in the surgical treatment of organs inside the thorax. Cardiothoracic surgeons are medical doctors who specialize in surgical procedures inside the thorax, which may involve the heart, lungs, esophagus, and other organs in the chest. Alongside performing surgery, they also diagnose and treat diseases of these organs.
