

The Largest Minority Non-Profit Agriculture Organization Is Urgently Requesting To Speak To President Biden

Minority women farmers have the solution to equality and inclusion in agriculture

Minority Women Farmers' & Children are urgently requesting a briefing meeting with President Biden. This is to insure our "turn-key" National Equality and Inclusion Act in over 70 chapters across the United States are included in The Build Back Better Initiative! Women of Color and our children has been left out since 1914

Oklahoma City, Oklahoma Nov 30, 2022 ([IssueWire.com](https://www.issuewire.com)) - National Women in Agricultural Association works to provide equality and sustainable opportunities specifically focused on helping women farmers and educating the minority youth towards a career in agriculture. We provide resources to farmers new and old to help them navigate through the always-changing agricultural landscape.

Our mission is to save lives and eliminate poverty by increasing the availability of fresh, locally-grown food while expanding economic opportunities. Our vision is to provide vital opportunities for rural and urban communities to equip them for tomorrow while engaging them in today and to make investments within society that will help move the US toward an authentic and sustainable future.

We are asking President Biden to sign an executive order to officially name NWIAA as a Federally Chartered Non-profit Organization so that NWIAA can receive lifetime sustainable funding to grow each of our chartered organizations. If you are interested in supporting our mission or starting a chapter in your state, please feel free to visit our website for more information.
