

The Stone Factory starts with the export & supply of Indian Natural Stones.

Castle Hill, Australia Nov 28, 2022 ([IssueWire.com](http://www.IssueWire.com)) - Architecture & interior design has become an integral part of building homes, office spaces, garden areas, outdoor landscaping, and many other purposes.

[The Stone Factory](#) has launched its new collection of Indian Natural Stones. The range of stone styles has been curated to match the taste of international designers & architects for breathtaking interior & exterior designs.

The Stone Factory now has the best collection of landscaping stones like Limestone, Sandstone, Granite, and many other varieties of stones. For interior designing, they have a premium range of tiles of marble, quartzite, porcelain, basalt, and other similar stones. The colours, designs, and shapes of the tiles are best suited for all kinds of spaces.

Mosaics, murals & artifacts are of great use for interior designing to create attractive interior & exterior spaces.

The Stone Factory has an export network to 40+ countries across the world including countries like

Canada, the UK, the USA, Ireland, and Australia. They are the best exporter among all Indian Natural Stone Suppliers. Their staff is very experienced & guides throughout the selection of stones as per requirements. The packaging is so durable that the products reach their destination without any damage.

The main motive of The Stone Factory is to always provide the best quality products to its customers.
