

Tracking The Cryptocurrencies Portfolio is Now Easy with FusedFolio

Introducing FusedFolio, the crypto portfolio tracking service for all crypto investors, helping them to keep a track of their investments under one platform.

Hyderabad, Telangana Nov 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - Investing in the crypto market is a lucrative option in the present times, with new coins getting introduced in the market quite frequently! More and more people are investing in cryptocurrencies, having accounts in multiple exchanges and also in private wallets. Tracking, measuring, and managing all the accounts is often a herculean task for investors. They look forward to tools or resources that can make the management of their portfolio easy and quick! This is where FusedFolio steps in!

FusedFolio is a service that was created by and for crypto investors to help them with the management of their crypto portfolio. It is a service that helps users connect their different wallets and exchanges. The service makes it easy to fetch balances from different exchanges and private wallets so that the investor can get a consolidated view of the holdings.

The Role of FusedFolio:

It's a digital platform that helps investors keep track of the changing values of different coins and tokens. Tracking changes in the portfolio gets easier, and individuals can control their digital currencies easily. Thus, with just a single view, it becomes easy to monitor the performance of the crypto portfolio.

FusedFolio was launched quite recently as a crypto portfolio tracking service. It is fully functional but in the beta stage. As of now, it integrates more than 50 blockchains and connects more than 15 exchanges. The portfolio balance is updated once daily, and the crypto prices are updated throughout the day several times. Thus, investors can have the latest value of their holdings whenever they wish to know it. The creators reveal that they will soon be integrating some of the major exchanges of the world.

How Investors Can Benefit:

Crypto investors can use a single dashboard, from which they can keep an eye on their different investments. Investors do not have to log in to individual online accounts to check the performance, which often becomes tedious and time-consuming. It is just a matter of a few clicks, and everything can be viewed easily. For more information, please visit: <https://app.fusedfolio.com/>

About FusedFolio:

FusedFolio is a crypto portfolio service for crypto investors that helps them track and monitor their crypto assets on one platform. It integrates more than 50 blockchains.
