

Uae's Leading Software Company, Beams, Implemented Pos Systems For Sri Lanka's Biggest Fashion Chain, Nolimit.

UAE'S Leading Software Company, Beams, Implemented Retail POS Systems for Sri Lanka's Biggest Fashion Chain, NOLIMIT All Outlets in Dubai.

Dubai, United Arab Emirates Nov 9, 2022 ([IssueWire.com](https://www.issuewire.com)) - BEAMS, one of UAE's leading software companies, aims to provide top-notch solutions to all the small-medium enterprises in UAE. Catering to segments that include complete customized ERP solutions, CRM, HRMS, project management, retail Pos, facility management, asset management, finance & accounts, gas management, restaurant solutions, and many more. BEAMS has now been chosen as the POS solution provider for Sri Lanka's largest clothing chain, Nolimit, across all its outlets in Dubai.

Beams IT Solutions was founded in 2003 by Mr. Shahim EP (Founder and CEO) with the goal of expanding globally. As he said, "The Company has been providing custom solutions for 19 years and is a market leader in all GCC countries and India. In addition to offering seamless integration compatibility with all POS hardware devices, we develop custom point-of-sale applications tailored to meet the needs of restaurants, food and beverage outlets, grocery stores, PETRO, hospitality, and retail sectors, and Beams will experiment with new solutions that will spread Beams to all industries by 2023 to increase business growth and operational speed".

[NOLIMIT](#) is the one-stop fashion destination for the entire family. Now it is crossing borders to reach the international markets. The chain plans to open at least three new stores within the coming years. This fresh inflow of investments will create exciting employment opportunities in the local market. Fresh perspectives in fashion, affordability, and expertise are what the U.A.E. could benefit from. The first store at Al Ghurair Centre will open its doors on the 17th of September.
