Madurai, Tamil Nadu Dec 1, 2022 ([IssueWire.com](https://www.issuewire.com)) - Nowadays, we are all familiar with the success of online marketplaces. Well, you might think of creating a marketplace. But building a marketplace from scratch takes your time and money. You can opt for an Online B2B marketplace with a SaaS platform. Because with SaaS online B2B marketplace, you can launch your marketplace immediately. QoreUps offers a [SaaS online B2B marketplace platform](#), a marketplace software called QMarket to make your business launch smoothly.

The unique features of QMarket's custom model provide you the ability to attract clients rapidly and establish your market as a well-known one in a challenging environment. With QMarket, you can start a business like the rental marketplace, eCommerce marketplace, service marketplace, event marketplace, and many more.

QoreUps is a SaaS online B2B marketplace platform creator that offers a powerful software suite, "QMarket," that turns your marketplace idea into live. It is a ready-to-go marketplace software. With user-friendly design and unique features, it turns your business efforts into profitable ones. To speed up the overall marketplace performance, QoreUps helps you in all stages, from idea to launch.

Not only the marketplace, but QoreUps also offers a partnership program for the affiliate marketer, resell agencies, resellers, etc. Through **QoreUps Reselling Partner**, you can earn a commission for each referral that turns into a paid subscription for QoreUps.

The CEO of QoreUps shared thoughts on SaaS online B2B marketplace. He said, "Our sole aim is to provide a low-investment marketplace with stunning and unique features. It helps B2B business entrepreneurs start their marketplace platform at a low investment. My team and I designed this marketplace builder which aids entrepreneurs in creating a marketplace instantly. We wish you all success in your B2B marketplace business."

To make your marketplace business stand out from the competition, QMarket has many unique features. Some of them are listed below.

Static Content Management

QMarket allows you to change the static content on the platform. It gives you and your customer a personalized experience. Also, it helps you to connect more to your customer. This way, you can bring more potential customers to your marketplace.

Instant Chat

Instant chat allows the customer and vendor to chat on the marketplace platform at any time. This helps to build trust among the marketplace customer and vendor. Also, you can control instant chat options from the marketplace admin panel by either enabling or disabling.

All-in-one Admin Panel

QMarket allows you to manage your entire marketplace from the admin panel. You can manage the

user, transaction, listing, reviews, disputes, etc.,

Multi-Currency

To make your platform more apparent to your customer, QMarket allows you to add multi-currency. Your customer can comfortably use the platform regardless of their currencies. Since, QMarket converts the currencies according to their preferred currency.

Custom Domain

In the initial stage, QMarket supports your domain with our business domain. Later you can customize it to an independent domain.

Multi-Language

With the multi-language option, you can add multiple languages for your needs. It is helpful when you extend your marketplace globally.

Custom Landing Page

QMarket is a pre-build marketplace software, but you can alter them to your target audience preference. QMarket allows you to change the available landing page into a customized one.
