

Bytebus introduces Cloud Mining to earn passive income

Clifton Park, New York Dec 6, 2022 ([Issuewire.com](https://www.Issuewire.com)) - [Bytebus](https://www.Bytebus.com) was founded in 2018 as one of the earliest companies to provide cloud mining services and is trusted by more than 360,000+ users worldwide. In the latest development, the company has released strategic services that make it possible to earn passive income using cloud mining in a convenient direction.

Bytebus focuses on Crypto mining as it is one of the quickest ways to make money. however, Mining requires expensive equipment and there is a shortage of mining machinery as the price of bitcoin rises. Therefore, the company has developed the services of Cloud Mining where people can profit from crypto mining without going through the stress of the process.

[Cloud mining](#) has been built by Bytebus to mine cryptocurrency by using rented cloud computing power without having the need to install or directly run any related software or hardware. People can remotely participate in cryptocurrency mining by opening an account and paying a minimal cost. This is why cloud mining has become so popular.

With the new development, clients are required to make no investments enabling anyone can participate in this event for free. Bytebus facilitates a free experience plan that gives its users \$10 when they register. People can use \$10 to buy the free plan and get \$1 per day when they reach \$100, they can withdraw money.

Bytebus has improvised flexible investment options. It currently offers several distinct cloud mining pricing plans, including \$10, \$100, \$1600, and \$6000 plans, etc. Each of these has its own contract duration and each offers a distinctive Return on Investment as given below:

The Daily Free plan, which has a \$10 contract price and one day, returns \$10 plus \$1.

The LTC Hashrate plan features a \$100 contract price, a 3-day term, and a fixed return of \$100 plus \$6.

The FIL Hashrate plan, which has a \$480 contract price, lasts for ten days and provides a fixed return of \$480 plus \$102.

Furthermore, every [Bytebus](#) user has a unique referral link, which can be shared with anyone, user can copy their referral link and share this link to get bonuses. Any new user, who registers using their referral link becomes a lifetime referral. As a referrer, people are eligible to receive a 3% referral commission bonus for every purchase made by any of their referrals. For example, if someone purchases a \$100 order using their referral code, they will get \$3 for free.

Consequently, Bytebus offers a simple web interface that makes it easy for customers to sign up and verify and use cloud mining for passive income.

About Bytebus

Bytebus is a regulated crypto mining platform and follows FCA (Financial Conduct Authority) regulation, the FCA regulates financial services, firms, and markets for the fair treatment of consumers.

The company is currently operating large data centers in Kazakhstan. Bytebus is also the only company in the world that has been granted a license to support land lease and exploitation by the Kazakhstan government within 5 years. In addition, it has developed the major cloud mining platform with the most advanced deployment technology, offering 2%-10% of the world's cloud mining Hash Rate.
