Eugene, Oregon Dec 16, 2022 ([Issuewire.com](https://www.Issuewire.com)) - Christmas is the time of the year when people find themselves and **Aleksandra Tryniecka**'s latest book '[Bunky and the Walms: The Christmas Story](#)' is proving that once again. The author did an amazing job in crafting this story which is full of emotions and capable of captivating readers of all ages, whether eight or eighty. Though the book is specially written for young readers from 4 to 13 years of age; there are multiple underlying philosophies that can envelop an adult in deep thoughts. Aleksandra has skillfully arranged the whole subject matter which creates a bridge between fiction and reality.

The storyline revolves around the central character named Bunky who is a blue hippo. On his way of life, Bunky becomes the hero of his own novel whom he envisioned while writing the story from his bedroom. On the way to his Christmas adventure, he finds his friends to be a part of it. The author was inspired by the blue hippo mascot in summer that had a character in itself. Slightly grumpy, slightly complaining, struggling inwardly, yet striving for the best for his life; Bunky is the personification of humans. Aleksandra knows there is a Bunky among everyone and she is offering that safe space for every reader to be themselves. The author believes, those young ones these days have a lot of burdens to prove themselves and she is encouraged to embrace their true selves.

Aleksandra Tryniecka is an Assistant Professor at Maria Curie-Skłodowska University in Poland who also enjoys writing a big time. Anthony Trollope and Wilkie Collins are the biggest inspirations for her literary creations. Other than writing, Aleksandra also enjoys reading, gardening, and baking in her spare time.
