

E-kyash Garnered Widespread Acclaim in Barcelona with New Functionality from Wallet Factory

Belize, Belize Dec 22, 2022 ([Issuewire.com](https://www.issuewire.com)) - The Belize Bank Limited (BBL), the largest full-service commercial bank in Belize that provides a wide range of banking and financial services, announced that it has scored a Silver Award at the ninth Global annual [Qorus-Accenture Banking Innovation Awards 2022](#) during a live ceremony in Barcelona. The prestigious award was received as a recognition for its nationwide eWallet platform E-kyash powered by Belize Bank in the Social, Sustainable, and Responsible Banking category.

With new digital wallet app functionality supported by Wallet Factory, [E-kyash](#) gained a competitive edge and won a coveted prize. As an innovative FinTech services provider, [Wallet Factory](#) helps accelerate the digital transformation in Belize by delivering mobile-first software solutions to serve the growing demand for digital payments from banks, merchants, and customers.

Agata Ruta, COO at BBL, commented: “We are glad to see our customers use E-kyash on a daily basis. They can receive salaries, make purchases, pay bills, and transfer funds in real-time. Our app facilitates payments for the Government of Belize and merchants via direct integrations. Also, Belize Bank supports its clients by bringing modern financial services to Belize, reducing cash in circulation, at the same time increasing financial transactions security in the country.”

The countrywide expansion of the digital wallet is aimed at reaching the unbanked population to fulfill Belize's financial inclusion strategy. The mobile wallet offers multiple functionalities and services on a single platform for various user segments as billers, merchants, customers, and agents.

Mikhail Miro, CEO at Wallet Factory, assured: "Getting awarded for the products wide audiences use is the greatest feeling! We will keep providing the best-in-class solutions to our clients with end-to-end payment and loyalty programs for customers and business users."
