

ExcelR launches the most advanced Software Testing Curriculum to match the industry's growing demand

“Agile and DevOps are the real reasons behind the humongous market growth,” said ExcelR’s CEO and MD Mr. Ram Tavva.

Bengaluru, Karnataka Dec 4, 2022 ([Issuewire.com](https://www.issuewire.com)) - The global leader and upskilling partner for more than 200K professionals, ExcelR Solutions, launches the most-advanced Software Testing course curriculum to meet the skill gap and growing industry.

According to Market & Market research, the software industry is expected to grow by \$63.9 Billion by 2028 at a CAGR of 18.36%, opening substantial job opportunities for freshers and experienced professionals. In addition, there are about 83,071+ job vacancies in India alone for various roles, from Software Test Engineers to Software Test Managers (Source: Naukri).

And to meet the rising skill gaps and new opportunities, ExcelR’s Software Testing Course is a 100-hour blended training program best suited for freshers and working professionals. It’s where you get one-year access to Jumbo Pass and attend one classroom training with any number of online batches from any trainer of your choice.

The course comprises four value adds – fundamentals of Java, Python, DevOps, and Agile, 2+ capstone projects, and 20+ assignments based on real-time case studies. You also learn and master software testing from 15+ years of expert trainers who keep themselves updated about the latest happenings in the software testing industry.

ExcelR provides online training worldwide and classroom training in selected cities. It also includes lifetime access to LMS, dedicated 1:1 doubt-clearing sessions, and Job readiness assistance like – mock interviews, resume building, and profile optimization on LinkedIn to make your profile stand out and reach out to the right recruiters.

So why wait for the right time when you can enroll and kickstart your career as Software Test Engineer from today itself?

About ExcelR:

ExcelR Solutions is a certified training institute delivering 75+ management and technical courses across India and all major cities worldwide. In addition to its top-notch training and exceptional post-training support, ExcelR provides lifetime access to e-learning and work on capstone projects and assignments with its job-readiness program.
