

Kabir Olaniran, MD, MPH, a Nephrologist with UT Southwestern Medical Center

New York City, New York Dec 19, 2022 ([Issuewire.com](https://www.issuewire.com)) - Dr. Olaniran is a fellowship-trained nephrologist specializing in kidney disease and dialysis. He joined the faculty at UT Southwestern Medical Center in Dallas, Texas in 2019.

His clinical practice involves both inpatient and outpatient care for acute kidney injury, chronic kidney

disease, end-stage kidney disease, and kidney replacement therapies. He primarily studies risk factors for kidney disease and kidney-related outcomes among Black Americans with sickle cell trait and sickle cell disease.

Educated in Nigeria, Dr. Olaniran graduated with his Bachelor of Medicine, and Bachelor of Surgery degree from the College of Medicine, the University of Lagos in 2006. He then relocated to the United States, completing his residency in internal medicine at Lincoln Medical Center in the Bronx, New York in 2015.

Through a fellowship at Brigham and Women's Hospital and Massachusetts General Hospital in Boston, he received advanced training in nephrology in 2019. He also earned a Master of Public Health degree from Harvard T.H. Chan School of Public Health.

With years of experience, the doctor is board certified in both internal medicine and nephrology by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Holding an academic title, Dr. Olaniran is an Assistant Professor in the Division of Nephrology at UT Southwestern Medical Center.

Among his professional affiliations, he is an active member of the American College of Physicians, the American Medical Association, the American Society of Nephrology, and the National Kidney Foundation.

Nephrology is a specialty of medicine and pediatrics that concerns itself with the kidneys: the study of normal kidney function and kidney disease, the preservation of kidney health, and the treatment of kidney disease, from diet and medication to renal replacement therapy. Nephrologists have advanced training in treating kidney disease. They diagnose and treat kidney failure, as well as help patients by prescribing medications, offering special diet advice, and coordinating dialysis care when the time comes.

An authority in his field, Dr. Olaniran was the recipient of the ASN's Ben J. Lipps Fellowship Grant, the ASN's William E. Mitch International Scholars Award, and Massachusetts General Hospital's Dennis A. Ausiello Outstanding Postdoctoral Fellow Award.

His interests outside of medicine include spending time with his wife and two children, traveling, and photography.
