

La Belladonna Tattoo, Piercing & Laser Removal Studio is Hosting a Pre-Opening "Meet and Greet" - JAN 1ST, NOON to 5PM

Meet top tattoo artists, expert piercing techs and laser tattoo removal specialists at NEW TATTOO studio opening in Wimberley, Tx, Jan 1st, Sun 12-5pm. Expert advice and cutting-edge technology demos, come join our Meet & Greet New Year's Day.

Removal Studio is kicking off the New Year by hosting it's pre-opening "MEET AND GREET" event on **Sunday, January 1st from 12 pm to 5 pm**. The studio is located at **614 Melody Way, Wimberley, Texas**. This event is OPEN to the public and will give tattoo and piercing enthusiasts a chance to meet the industry-leading tattoo artists, piercers, and tattoo laser removal specialists who will be working at the studio and demonstrating their work. In addition to being one of the first to make an appointment with the artists of your choice (before schedules get booked), they will offer consultations and education, snacks and hor d'oeuvres, raffle tickets and give-a-ways, as well as specials on services and products ONLY, offered during this exclusive event.

When asked what makes La Belladonna Studio different from others, owner and top artist, Emily Woodard stated, **"Getting a tattoo, piercing or removal is a very private, personal decision. Most tattoo studios don't take the time to educate their clients on the process of these services. For instance, when getting a tattoo, they don't explain results can vary greatly depending on skin type, style of tattoo, and proper aftercare."** She said, **"We want to be different by offering honest advice, teaching proper aftercare, and focusing on client's long-term vision - not just take their money and have a revolving door."** That's why La Belladonna Studio provides an upfront, thorough consultation before performing any services around tattooing, piercing, or tattoo removal. **"We want our customers to become lifetime clients. That's why their safety is important. These are medical procedures that can go horribly wrong if you don't know what you're doing"**, she said. In fact, many of their customers drive and even fly in from other states because of the talent, honest feedback, expertise, and customer-centric approach that La Belladonna Tattoo, Piercing & Laser Removal Studio delivers.

This is a **MUST-ATTEND EVENT** if you are looking to get ahead of the artist's bookings or if you are looking for expert education on everything from the tattoo, piercing, or removal process and how to avoid permanent mistakes, to the importance of aftercare products and procedures and what to do if you need a tattoo removed - among many more important conversations about **##tattoos #piercing #lasertattooremoval #meetthetattooartists #laBelladonnattattoostudio @labelladonnatattoos @labelladonnapiercingstudio @elizabeth_bella_donna1 (at La Belladonna Tattoo, Piercing & Laser Removal Studio)**

La Belladonna Tattoo, Piercing & Removal Studio is looking forward to meeting new people and making their mark on the Texas Hill Country community. Please like and follow the studio's social media to learn more about upcoming events including our Grand Opening on January 3rd, 2023.

###

About La Bella Donna Tattoo, Piercing & Laser Removal Studio: La Belladonna offers consults and services by leading specialists and top tattoo artists with over 30 yrs' combined exp. The studio specializes in American Traditional Photo Realism, Black and Gray, and True Gray Pieces. It's an all-rotary machine shop, using axys Valhalla wireless with a critical battery. La Belladonna also has experts in Laser Tattoo Removal that offer education about the removal process using the industry's leading Astanza Trinity laser machinery before performing services. The studio features piercing saline aftercare, foaming cleanses, moisturizers, CBD salves, and all-natural vegan products by AfterInked and VitaliTree. We only use soothing, non-petroleum products for healing, piercing, and tattoos. Our studio uses certified surgical titanium, stainless steel, and 14k yellow, and white gold jewelry and we only use internally threaded and threadless jewelry. The studio also offers custom coloring of jewelry using an anodizing titanium technique for customers looking for unique pieces. Clients can book a consult with a specialist or artist to learn more about artists' techniques, styles, and procedures.
