

Leawo Prof. Media V12.0.0.0 Brings New UHD Creator, Blu-ray Recorder Copy/Ripper and Blu-ray to DVD Converter Modules

Leawo Software today brings new UHD Creator, Blu-ray Recorder Copy, Blu-ray Recorder Ripper and Blu-ray to DVD Converter modules to Prof. Media V12.0.0.0. Plus, known bugs have been fixed for more stable performance.

Shenzhen, Guangdong Dec 22, 2022 ([IssueWire.com](https://www.issuewire.com)) - As an all-in-one versatile multimedia solution suite, [Leawo Prof. Media](https://www.leawo.com) has released version 12.0.0.0, which brings new UHD Creator, Blu-ray Recorder Copy, Blu-ray Recorder Ripper, and Blu-ray to DVD Converter modules, and fixes known bugs. With this new version, Prof. Media aims to provide a more comprehensive 4K Blu-ray/Blu-ray/DVD/video/audio/photo solution and meet the growing needs of users.

“Leawo Prof. Media V12.0.0.0 is one of the biggest updates to the product since its release,” said Stone Brooks, the Product Director of Prof. Media. “With the new update, we’ve made the product more powerful than ever. Our users can now easily manage more of their Blu-ray collections, such as ripping recorded Blu-ray discs, burning 4K Blu-ray discs, and more.”

Major new features of Leawo Prof. Media V12.0.0.0 include:

- Added [UHD Creator](#) module

This 4K UHD burner supports creating 4K BD100/BD66/BD50/BD25 blank discs, folders, and/or ISO image files from 4K videos and image files in various formats like MP4, AVI, MKV, WebM, PNG, JPG, BMP, etc. Plus, users can freely DIY output 4K Blu-rays through preset disc menu, templates, and menu designer.

- Added [Blu-ray Recorder Copy](#) module

This BDAV (Recorded Blu-ray) copier is able to copy and back up Blu-ray discs recorded with Panasonic, Sony, Samsung, LG, Sharp, and more Blu-ray recorders to blank Blu-ray discs, folders or ISO image files, regardless of protection and types. All original elements will be retained, such as video dot frame, subtitle, audio channel, etc.

- Added [Blu-ray Recorder Ripper](#) module

This BDAV ripper is specially designed for converting homemade/recorded Blu-ray to videos in MP4, MKV, AVI, and other 180+ formats, no matter whether the source BDAV disc, folder, or ISO files is encrypted or not. Additionally, it supports BDAV editing features like merging, trimming, watermarking, cropping, applying 3D effects, and more.

- Added [Blu-ray to DVD Converter](#) module

This Blu-ray to DVD converter is capable of decrypting, ripping, and copying all Blu-rays to DVD discs, folders, or ISO image files with advanced decoding and encoding technology while retaining the best quality. With hardware acceleration technology, it can save time on Blu-ray to DVD conversion.

- Other bug fixes and experience improvements

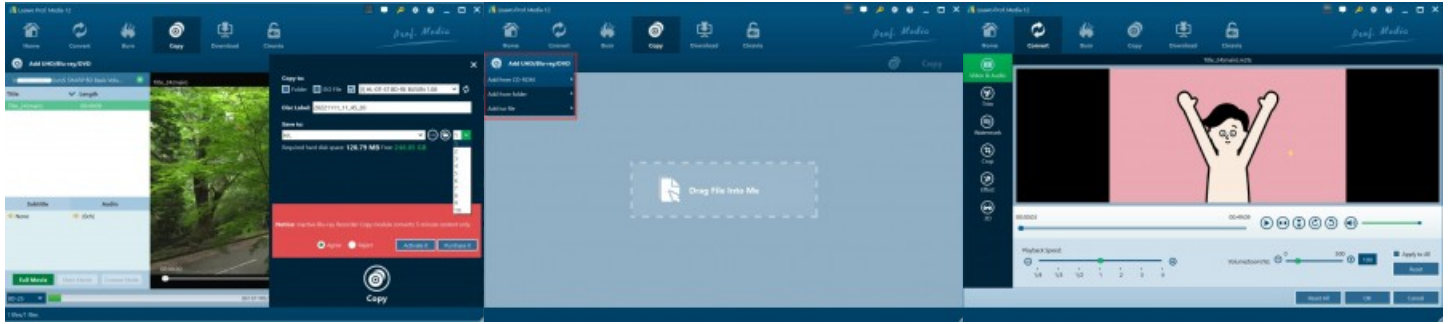

- Optimized operation, interface text, etc.;
- Fixed the blurry background of Blu-ray Creator's output menu;
- Fixed other known bugs.

Compatibility & Price

While Leawo Prof. Media supports both Windows and macOS platforms, the 4 new modules are currently only available for Windows. Their Mac version will also be updated soon. Annual plans are \$44.95 per module, but lifetime licenses vary slightly. Specifically, the UHD Copy costs \$89.95, Blu-ray to DVD Converter costs \$69.95, Blu-ray Recorder Ripper and Blu-ray Recorder Copy are \$99.95 each. Furthermore, people can get a 30% sitewide coupon on [Leawo 2022 Christmas & New Year Giveaway & Sales](#), saving up to \$107.84 on these 4 modules.
