

Sunchem India - A Growing Business In Beauty Industry

Mumbai, Maharashtra Dec 22, 2022 ([Issuewire.com](https://www.issuewire.com)) - A person with a never-say-die attitude and brilliant academic background wanted to leave a global footprint, Dr. Vimal Tolia envisioned this company and put into life in 1985, has a 2 times PhD from Steven's college UK in dyes and intermediates and advanced study on scalp disorder, is also a Trichologist and a research chemist.

Sun Chem India has entered and established the international market of UK and UAE, has also created its presence in 14 different countries. Covering over 500+ SKUs in multiple categories, from baby care to toilet cleaners. Sun chem India slips right under the skin of your brands to help bring them to life.

Shail Tolia son of Dr. Vimal Tolia, a growth-driven leader, has natural creativity and flair for product development and innovation with excellent organizational skills, is a FDA approved chemist. His expertise ranges from laws of physics, thermodynamics, chemistry and progressive research and product development

Sun Chem India is a private-labeling manufacturing company, now led by Shail Tolia. Sun Chem India combines science and creativity in making transformative & innovative products. This company is a scientifically-driven industry based on constant innovation and product development through R&D.

The R & D team is the soul to this organization providing powerful knowledge and insights, improvements to existing processes for better efficiency with reduced costs. In their highly equipped labs, they combine passion and research to perfect their standalone products in the market to match consumer's ever-changing expectations.

Shail Tolia himself, a research chemist, studies thoroughly each component and active ingredient to find alternative solutions to improve both the formulation quality and the innovation level of the cosmetic products for third parties. Their highly qualified R & D staff is highly committed to customer satisfaction in terms of quality and safety, making sure these products stand out in the market.

This company has its strong R&D presence, with both cosmetic product advertising and product claims having scientific references and science.

This organisation stands out with the vision of being at number 1 in the field of depilatory product range. Besides this, the company also is multifaceted covering a wide range of other categories from Home Care, Skin Care, Hair Care, Professional Salon care, Health & Personal care, Hygiene, Hair colour, Depilatories, Baby care, Pet Care - EVERYTHING. With the best hair colour range in the market Sun Chem India is the only company you can look forward to getting all of it at one place. Believing in his exceptional vision, Shail Tolia is confident about retaining the customers on the grounds of his instant gratifying and result oriented products. Along with his team, he desires to be one amongst the World's top 5 depilatory companies.
