

Try Cyfuture Cloud for \$150 Free Credits to your Cloud Wallet

Cyfuture Cloud is excited to offer all new users \$150 in free credits to use toward creating Virtual Machines (VMs) when they sign up.

Noida, Uttar Pradesh Dec 15, 2022 ([IssueWire.com](https://www.issuewire.com)) - Cyfuture Cloud has announced [free \\$150 credits](#) to your cloud wallet upon signing up. As soon as a user fills up the signup form and gets verified, the user gets credited with a \$150 credit in the Cyfuture Cloud wallet that can be used to create Virtual Machines (VMs). Now organizations, large and small, can create VMs free of cost and explore the full-functionality of Cyfuture Cloud Console, including compute VMs, block and object storage, professional email services, and load balancer - all of the essentials for developers to build complete applications on Cyfuture Cloud.

While other hyper-scale cloud vendors provide a limited-time trial of their console database, Cyfuture Cloud's free credits are valid until the credit wallet gets exhausted. Additionally, users can then switch to a pay-as-you-go model. Users can upgrade easily to get more instances, larger instances, and additional services. Cyfuture Cloud 150\$ free credits can be accessed in all regions of the world and are available to anyone.

"We are thrilled to offer \$150 free credit to whoever signs up to Cyfuture Cloud so that these credits can be utilized to create [virtual machines](#)," said Anuj Bairathi, CEO of Cyfuture India Private Limited. "This will enable the businesses to migrate to the cloud and help the next generation developers to learn the latest cloud console infrastructure for developing powerful data-driven applications on the cloud."

The "\$150 free credit" program initiated by Cyfuture Cloud enables the organization to create VMs absolutely free of cost. As a result, the tenants can quickly get started without waiting for IT to provision and create as many instances as possible.

Cyfuture Cloud is a brand new product of Cyfuture India Private Limited, India's leading IT services provider that amalgamates IoT and AI-based automation for better customer engagement. The company offers organizations the ability to leverage a new business model and turn capital infrastructure expenses into variable costs. [Cyfuture Cloud](#) is powered by highly robust Tier III certified, MeITy empaneled datacenters located at multiple geographies in India for enhanced support and security.
