

U.S. Military Children in need of Toys this 2022 Christmas!

Irvine, California Dec 6, 2022 ([Issuewire.com](https://www.issuewire.com)) - U.S. Military Children in need of Toys this 2022 Christmas-

Due to the economic challenges America is facing today for the first time in 18 years we are having an Emergency Toy Donation shortage for our Military Children and their Unit Christmas Holiday Parties!

Decades of multiple Wartime Deployments, Worldwide Training Missions have taken a heavy toll on America's Military and their families. Military children have missed many Holidays like Christmas and other special moments like Birthdays, Sporting events other family activities because their Military Father or Mother is serving far away from home.

Operation Christmas For Our Troops & Their Families is a non-partisan Christmas holiday effort to give much-needed support to America's deployed and home Military Units and their families. Since 2004 Operation Christmas For Our Troops & Their Families has been doing a Christmas Drive that collects new Toys, Gifts, Sporting Equipment, and Donations to help support our U.S. Military Units and their families during Christmas.

This family moral building Christmas effort helps support America's National Guard, Reserve, and Active Duty deployed and at-home Military Units and their families. Which began in November of 2004 and has grown every year since. It is not just the Soldiers, Sailors, Airmen, Marines, Coast Guard, and Guardian Military Members that are affected when they are serving and deployed and away from home but also the families and children who are left behind.

Please help Support Operation Christmas For Our Troops & Their Families this Christmas! Go to <https://wp.yellowribbonamerica.org/donate/> to help bring Christmas cheer to our Military and their families today!
