

Wesley Williams SMASHES Guinness World Record for the “Tallest Rideable Unicycle”

Guinness World Records are meant to be broken! Wesley Williams broke his own Guinness World Record for the “Tallest Rideable Unicycle” previously set at 8.89 Meters(29.1 Feet) at 9.73 Meters(31.9 Feet)!

Stuttgart, Baden-Wurttemberg Dec 30, 2022 ([IssueWire.com](https://www.issuewire.com)) - You may have seen Wesley Williams riding on one wheel high above the crowd on many tv talents shows such as America's Got Talent, Britain's Got Talent, or The Gong Show among many others. This Weston, Florida native has been a hit in practically every country and venue around the world. Wesley Williams - The One Wheel Wonder is the KING of all the unicycle performers, make no mistake about it. There are approximately seven billion people on planet earth and hundreds of thousands of performing unicyclists worldwide. Yet, there is not one other person on earth that can say they ride "The World's Tallest Rideable Unicycle" certified by Guinness World Records themselves.

Since February 2020, Wesley Williams has held the world record for the "Tallest Rideable Unicycle" at 29 Feet, 1 Inch. On December 29th, 2022 in Stuttgart, Germany at the Weltweihnachts Circus, Wesley broke that same record for the "Tallest Rideable Unicycle" at 31.9 Feet! Truly a breathtaking stunt not for the faint of heart. While no one challenged the record in the past two years Wesley says, "I am always striving to do more and take things to the next level. If that means breaking my own records, so be it." Furthermore, Wesley Williams says he wants to use this record to prove to others that nothing is impossible. Last October, Wesley had a performance accident where he fell over 27 feet to the floor in Madrid, Spain while performing on Got Talent Espana. This unfortunate event required five operations, two metal plates, thirty-five screws, and eighty-three stitches, and sidelined him for over 7 months.

After a long recovery, not only did Wesley Williams come back to perform again but he is doing so on one of the most honorable shows around the world, the Weltweihnachts Circus in Stuttgart, Germany. It is the largest and the most awarded Christmas circus in the world. The trade journal "Circus Zeitung" described the program as "the best of the best" and as "Germany's largest circus event". Audiences have come to expect excitement, stunts, beauty, and unexpected surprises all under the huge bellowing big top! The highly respected producers, Henk and Elisa van der Meijden of Stardust International and the World Christmas Circus are very complementary of Wesley Williams - The One Wheel Wonder stating he is "...An act you will never forget! Everybody falls in love with his unique skills, charismatic personality, and thrilling act! A new circus star is born - Wesley Williams!"

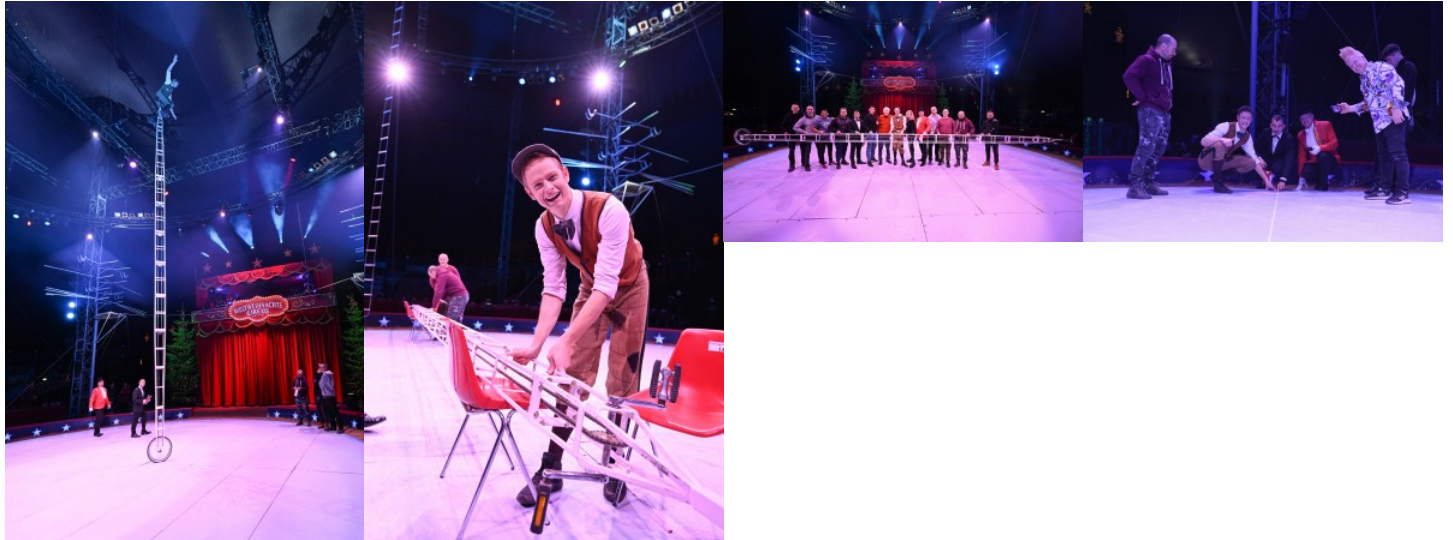

Directly after this engagement, Wesley Williams will head to the academy awards of the circus industry, Festival International Du Cirque De Monte Carlo in Monaco. Wesley Williams - The One Wheel Wonder is not only appearing at the 45th Edition of the world-famous Festival International Du Cirque De 2 Monte Carlo but is a featured attraction alongside multiple time previous Main Prize Clown Award winners, Rene Casselly, Kris Kremo, Alex Giona, and others in the talented line up of the world's best! Williams says, "It is one of those things that seem unreal. It is every circus performer's dream. I used to tell my mom growing up "Mom, do you think I can perform in Monte Carlo, one day?" Now my time has come and I am ready to give my absolute all. I have waited all my life for this moment!" Wesley continues to "Ride Above All Odds" around the world and most will agree he is "The Wheel Deal."
