

Autoslide Partners with Yale and August to Introduce Innovative Smart Door Solution

Las Vegas, Nevada Jan 30, 2023 ([Issuewire.com](https://www.issuewire.com)) - Autoslide, a leading manufacturer of automatic sliding door systems, has announced a partnership with Yale and August, leaders in smart home security. The companies have integrated Autoslide's AutoSwing Door System with Yale and August smart locks, creating a first-of-its-kind smart door solution for residential and commercial properties.

The integration powers completely hands-free control, opening the door automatically as the user approaches, and automatically shutting and locking the door behind them. Users can also control the door with the Yale Access or August app, giving them the ability to lock and unlock their doors remotely, as well as set up automatic locking schedules. The AutoSwing Door System can also be activated with voice commands through Amazon Alexa and Google Assistant.

"We're thrilled to partner with Yale and August to bring this innovative solution to market," said Joseph Castonguay, President of Autoslide. "Our automatic door, AutoSwing, combined with Yale and August smart locks provide a convenient and secure way for residents to increase access to their home and property owners to manage access to their buildings."

"Yale and August are committed to making smart home access more convenient while securing what you love most," said Jason Williams, President of Yale and August, U.S. Smart Residential. "We're excited to partner with Autoslide to bring this innovative smart door solution to customers who want more everyday convenience or may need extra assistance getting in and out of their homes."

The new integration between the AutoSwing System and Yale and August smart locks will be available this spring. Installation can be done as a do-it-yourself project or completed by certified professionals.
