

Beauty clinic in Belo Horizonte, Camila Samara offers personalized treatments for the body and well-being

Divinópolis, Minas Gerais Jan 8, 2023 ([IssueWire.com](https://www.issuewire.com)) - Since she was a little girl, Camila has been inspired by her mother, who was always very vain, to take care of her skin. Today, at the age of 33, she works as a beautician and cosmetologist in her own clinic, in the neighborhood of Santo Antônio, in the capital of Minas Gerais. Camila Samara started the aesthetics course at a technical school, and soon after graduated in Aesthetics and Cosmetology at the Newton Paiva University Center, specializing in lymphatic drainage, the flagship of her clinic.

“Since I was a little girl, I was very vain, I liked this world of makeup and beauty. My mother was also always vain and encouraged me to use creams, sunscreen, and various products. I chose the right profession, taking good care is the essence of my work,” she commented.

With more than 11 years of experience, Camila Samara is nationally recognized for her work in the area of aesthetics and well-being, having the opportunity to participate several times in workshops and specialization courses. She started her career as a professional beautician in a private clinic, but in 2017 she saw the opportunity to become an entrepreneur and incorporated her name into her own brand. Her goal is to offer her clients the best aesthetic treatments, making them feel good about themselves and consequently raising their self-esteem.

One hundred percent of the clinic's target audience is female. They are women who seek the lymphatic drainage technique, relieve the discomforts of the menstrual period, fight pain in the legs, and abdominal swelling, and even reduce stress levels. But lymphatic drainage can be used in cases that go beyond aesthetics, such as in the postoperative period of several surgeries, with the aim of preventing the formation of fibrosis and accelerating the recovery process.

“Many people see drainage as just an aesthetic procedure, but there are other benefits that are rarely mentioned. Drainage improves the quality of sleep, the appearance of cellulite detoxifies the organism and, with that, our body feels the results”, pondered the beautician and cosmetologist.

In addition to lymphatic drainage, Camila Samara offers skin cleansing, relaxing massage, peeling, modeling massage, facial rejuvenation plans, underarm and groin whitening, anti-acne treatment, measure reduction plan, cellulite, and facial and foot treatment.

Environment and technology The clinic offer a pleasant and cozy environment, in addition to being fully equipped with the most modern equipment on the market. Camila Samara offers services with cutting-edge technologies to provide customers with unique and personalized experiences.

“I take care of one person at a time. The clinic has high-tech equipment, such as radiofrequency, vacuum therapy, LEDs, thermal blankets, and others that are successful in treatments. Everything is thought of the client's complete well-being”, she stressed.

Personalized service Camila Samara works from Monday to Saturday and on one day of the week offers personalized service at home. Always on Wednesdays, she serves her clients in the comfort of their homes with safety and convenience. A very sought-after service, for example, by pregnant women who are treated with specific products and care.

“At the beginning of my career, I only provided home service and some customers did not want to be left out of this service, which is done in such a personalized way. So, I reserve one day a week to serve them in the comfort of their homes, with more convenience”, says Camila Samara.
