

DRS Softech Launched a New Version(23.1) of the DRS Office 365 Email Backup Tool

Los Angeles, California Jan 29, 2023 ([Issuewire.com](https://www.issuewire.com)) - DRS Softech offers excellent solutions to all technical issues. The company provides services in different categories like email migration, cloud migration, backup recovery, database recovery, etc.

Introduction to the Software

DRS [Office 365 Email Backup Tool](#) is a professional tool that can help users to back up Office 365 emails to a local hard drive. With this tool, you can save your mailbox data to several file formats, including PST, MSG, EML, MBOX, OST, CSV, etc. Moreover, it also enables you to save Office 365 emails to external drives. You can migrate your Office 365 mailbox data to different email clients like Gmail, Yahoo, Thunderbird, Opera Mail, Hotmail, Live Exchange, GoDaddy Mail, iCloud, Zoho Mail, HostGator, etc. It is compatible with all versions of Windows OS and it is also available for Mac OS.

Features of the Software

The updated version of this software provides you with a better GUI and modern authentication mode for verifying your Microsoft 365 account. It has many advanced features. This tool allows the backup of complete mailbox data. Using its Remove Duplicate feature, you can easily skip or remove duplicate

items while performing the migration process. DRS Office 365 Backup software embedded with Mail Filter and Task Filter option can help users to filter the data as per the selected date range. You can also choose a custom name and location for the resultant folder by using the custom folder name and path to save options. Above all, the demo versions of the software are available so you can evaluate its functionality. Users can migrate 50 emails per folder for free.

Words of CEO

CEO Sonika Rawat remarked “To make Office 365 migration fast and easy, we upgraded the DRS Office 365 Backup Tool with a more advanced algorithm. Now, you can log in to your Office 365 account using modern authentication and migrate the mailbox data to various email providers without compromising data integrity. We made every possible effort to make the Office 365 backup software secure and easy to use. Therefore, you do not need to worry regarding tool functionalities and data privacy.”
