

E-cell IIT Madras conducts Startup Meet at Ofis Square, Noida

Ofis Square hosts startup meet powered by E-cell IIT Madras

Noida, Uttar Pradesh Jan 6, 2023 ([Issuewire.com](https://www.issuewire.com)) - The whole idea behind the Startup Meetup was to bring like-minded people closer. E-cell IIT Madras hosted their "The Delhi edition" at [Ofis Square](#), Noida

This was an extremely grand, eloquent, and gracious event. There were approximately 70+ startups, investors, enablers, incubators, and members from the sponsor panel at the event. The meetup also hosted companies like VakilSearch, WestBridge Capital, YourNest, and DBS Bank. Being a venue partner, Ofis Square hosted this startup meet in their premium Auditorium and buffet event space.

This event helped in providing a deep insight into the workings of startups and other established companies. There was a lot to learn, see, explore, and experiment with during it all.

The members ranged from startup owners to entrepreneurs and even students. It provided a fair chance to network and exchange ideas for all. The Start-up meet-up was one of the few events organized by IIT Madras every year. It bought a bounty of opportunities and possibilities with it.

Ofis Square has committed to hosting 50+ such startup events in 2023 to foster entrepreneurship in India.
