

Embraced Smiles: A Leading Clinic That Can Help You Get a Beautiful And Confident Smile

Saratoga, California Jan 15, 2023 ([Issuewire.com](https://www.issuewire.com)) - Embrace Smiles provides safe, efficient, and affordable care to the patient using the most advanced orthodontics technology and procedures available. Embrace Smiles is a boutique orthodontic office that is conveniently located on the border of Saratoga, Cupertino, and West San Jose. The entity has a team of [South Bay orthodontists](#) who are excited to meet you and help you achieve and maintain a vibrant, healthy smile. The ultimate expert, Dr.

Chong is always there to help you at every step, from helping you maintain dental hygiene to walking you through different treatment options such as metal braces, clear braces, lingual braces, and Invisalign. With the help of proper orthodontics treatment, everyone can achieve a beautiful smile that will last a lifetime.

For more information, please visit: <https://embracedentalgroup.com/>

Dr. Chong is the only American board-certified dual-trained specialist in orthodontics and periodontics in Bay Area. Embrace Smiles has a team of specialists who are passionate about delivering patient-focused oral care so you can take wise decisions for your teeth and jaw. The entity starts the treatment by providing free initial consultation and if Dr. Chong finds a clear aligner or any other treatment suitable for you, the team will conduct a 3D scan and plan your tooth movements according to it. With the help of aligners, you will be able to smile beautifully and with much more confidence. Embraced Smiles make sure to create beautiful smiles in a fun, welcoming, and warm environment. With the help of tools such as retainers, x-rays, and braces, any issue can be easily detected and jaw issues that are not visible on the surface can be easily fixed. When the problems are detected at an early stage, they can be prevented before they become serious.

Dr. Chong uses iTero Element Scanner's wand which is very helpful as it captures images of your tooth surfaces and gum tissue. There will be no more gooey mess that is associated with taking impressions and no unpleasant taste or smell. The entity accurately visualizes and prepares for issues such as bone quality and the location of sinuses, nerves, and other vital anatomical landmarks. With the help of this scan before surgery, the entity is able to improve its patients' experience and deliver a positive treatment outcome.

The team offers a one-of-a-kind Embrace Clear Retainer Program®, so you don't need to worry about losing or replacing your retainers. You will be able to get all the help simply by calling them to schedule a consultation with Dr. Chong. The entity provides free consultation and if Dr. Chong finds a clear aligner or any other treatment suitable for you, the team will conduct a 3D scan and plan your tooth movements according to it. With the help of aligners, you will be able to smile beautifully and with much more confidence.

About Embraced Smiles:

Dr. Chong is experienced in the practice of [orthodontics in the Bay Area](#) and makes sure that all his clients can get the beautiful smile that they deserve. The entity uses revolutionary technology that provides three-dimensional views that allow the doctors to thoroughly assess and plan each patient prior to any procedure. With the highest standards of dentistry and proven treatment procedures, she is helping patients to maintain beautiful, healthy smiles.
