

## **EPOCH EPTAI Intelligent Decentralized Trading, a risk-free, reliable way of consistent wealth growth.**

EPOCH EPT was founded in 2020 and has its headquarters in London, England;

**Hockley, Birmingham Jan 21, 2023 ([IssueWire.com](https://www.issuewire.com))** - EPOCH EPT concentrates on integrating centralized exchanges (CeFi) and decentralized trading platforms (DeFi) to build a cross-platform trading model, based on cutting-edge AI technology and in-depth research, independently develops quantitative research systems, trading systems, middle, and back-end systems, realizes the optimal interest rate for cross-platform transactions, provides non-custodial smart contracts for international

users, and AI empowers investment funds to be allocated.

Team members consist of more than 30 of the industry's best talent in financial technology, blockchain technology, AI research institute, and data research facility come from Wall Street, Russia, Africa, and Asia.

At the beginning of the project, it received tens of millions of financings from major venture capital institutions and exchanges. Pioneers and visionaries of EPOCH EPT construct a decentralized infrastructure to achieve a fully decentralized cross-platform integrated aggregating transaction ecology. This financial "utopia" will be open, free, and inclusive for everybody.

EPOCH EPT has launched a new rebate mode. Every time a new user is successfully encouraged to register using the rebate method, the referrer will be able to receive a commission when the new user conducts transactions. Users can increase their income and accelerate their path to financial independence by taking advantage of any EPOCH EPT mining or quantitative contract market.

Europe is the global economic hub and an essential part of the global community. In the next ten years, EPOCH EPT's primary development will be focusing on France, Italy, and numerous other neighbouring nations.
