

Futurewiz Announces Super 50 Program For Advanced VLSI Design Training

Noida, Uttar Pradesh Jan 11, 2023 ([Issuewire.com](https://www.issuewire.com)) - [FutureWiz](https://www.futurewiz.co.in) (or "Future Tech Wizards LLP") announces the launch of "Super 50," a specialized VLSI training program for students and professionals with a 100% (hundred percent) placement or money-back guarantee.

FutureWiz has been a leading provider of VLSI training for more than five years. The "Super 50" program is a Post Graduate (PG) Diploma in Advanced VLSI Design. In the course, fifty (50) bright and enthusiastic students from all over India will be selected, and an exceptional group of engineers will be curated.

Arti Kishore, CEO of FutureWiz, said, "Super 50 is a one-of-a-kind program in VLSI design with a placement or full money-back guarantee." The annual salary of such placed students will be at least eight (8) lakhs. The courses are being launched, each for verification and physical design. "With experienced training faculty and effective techniques, the students will be mentored to be very strong with basic concepts but also have depth in advanced skills and techniques."

"Multiple scholarships will also be announced for the Super 50 program in the coming time with the first batch starting in April 2023", Mrs. Arti further added.

Nitin Kishore, CEO of Truechip Solutions Pvt. Ltd. said, "We have reviewed the Super 50 program and it will help to create a funnel of very strong and talented engineers which will help to meet the growing needs of the semiconductor companies in India. Students who get selected for this course will have numerous opportunities for exposure, including the chance to participate in internships, work on real projects, receive one-on-one mentoring, and much more". Nitin is also a Partner at FutureWiz.

For all the students looking for a gateway to the chip design/ EDA/ VLSI world, there is nothing better than the call of Super 50 by FutureWiz. Each stage of learning will consist of hands-on. All students will have access to FutureWiz's Learning Management System for remote education. Selection criteria for the Super 50 Program include an all-India test in addition to a few other criteria. For more details pls visit www.futurewiz.co.in

About FutureWiz:

Initiated with the sole purpose of offering top-notch industrial training using its specially created modules, FutureWiz is actively engaging the VLSI sector. FutureWiz is a sister company of Truechip Solutions, and it trains professionals and fresh graduates of engineering in basic to advanced skill development in VLSI across the globe, mainly in VLSI. The USP of FutureWiz is its ability to provide personalized training programs that help students become more proficient in both fundamental ideas and cutting-edge tools and methodologies.
