

Home Deliveries are a thing of Past, Now Order food on train online too

Zoop, the best app for ordering food in trains while traveling, is the first app to have a partnership with IRCTC.

New Delhi, Delhi Jan 11, 2023 ([Issuewire.com](https://www.issuewire.com)) - There is good news for you if you take the train. Most people prefer taking the train to the bus when traveling. However, during a long train trip, eating is usually the biggest issue. Right, but now there is a solution; you can now Order Food on Train Online outside the train as well. Due to COVID, no food could be served inside the train. You now have additional food alternatives thanks to the railway, though.

You may now order your favorite food and have it delivered to your seat. Now, travelers can order hot, fresh food while traveling. More than 400 stations presently offer this service. You can take use of this food delivery service while sitting in your own chair whether you are traveling to your hometown or somewhere else. No longer will you have to sacrifice your diet while traveling. You can put it in whatever order you like.

Advantages of online food ordering

The benefits of this online meal delivery in trains are something that many of you are considering. As far as we are aware, COVID was a key moment in preventing future occurrences of this kind. In their best efforts, online platforms.

I will now explain why choosing [IRCTC e-catering](#) services over neighborhood restaurants is a good idea.

Fresh and hygienic food is what we order online. Only restaurants with authorization from the department in charge of food safety allow delivery of food over the trains. The kitchenware has undergone sanitization. You can take pleasure in your meals because the food is prepared freshly and served to you warmly. The food is adequately covered and packaged to prevent contamination. The best perk is that you can get whatever you want to eat at that moment for a reasonable price. While

seated, you can consume whatever the town has to offer.

How to place a food order online

The method of using [Order Food on Train Online](#) delivery services is extremely simple. You will find a 10-digit PNR number on your ticket for your confirmed reservation. You must go to the website where you want to make your purchase. Following the entry of the PNR number, a menu of available foods will appear. The train number and train name can also be used to place an order. The next step is to choose the station where your food will be delivered. After that, a list of restaurants will display along with their menus and prices, allowing you to choose your meal.

You can then place your order before going to the checkout page after the price has been presented.

Your registered phone number will receive a confirmation message. once the order has been placed. You can also follow the progress of your order. In addition to this, you may look at a lot of other things in the options for meals on trains. You can check your PNR status as well as information about your train, trains between stations, the position of the platform, and train schedules.

How to place a food order using a train name or number?

How to order meals on the train with Online Railway Food Order Delivery confounded some people. They are unaware that they must place their orders using the train name or number. So, this is the answer for them. Both the train number and the train name can be used to order food online. You must enter your date of travel and one of the following, either the train number or the train name. Your information will be instantly retrieved by the website, which will then give you the option to select the station where you want your food delivered. There are numerous meal choices available for you to choose from the places listed.

You can use train names like Shatabdi express and Rajdhani express to find eateries, as well as train numbers like 12005, 12172, 12223, 12952, 22692, and other trains that total more than 7000. You're right, you may order food in any of the 7,000+ trains.

So all that's left to do is unwind, drink some cuisine you order on the train, and enjoy your stress-free train ride. particularly those who must travel great distances. With only a few simple steps, they can now eat their favorite dish or a dish that is well-known throughout the state. Now, taking the train will be more enjoyable for those who enjoy it.
