

Ideanomics rumored to be in the final stages

Guangzhou, Guangdong Jan 21, 2023 ([IssueWire.com](https://www.issuewire.com)) - "Ideanomics, an electric vehicle (EV) company, is said to be in the final stages of a merger with retail giant Amazon. The merger, which is rumored to be worth billions of dollars, is said to be happening after the completion of the merger with VIA Motors, the EV company. The merger is expected to give Amazon a strong foothold in the EV market and allow the company to offer a wide range of EV models to its customers. Insiders say that the merger will also give Ideanomics access to Amazon's vast distribution and logistics network, which will help the company to scale up its production and reach a larger customer base. The deal is expected to be officially announced in the coming weeks, pending regulatory approval."
