

MacSonik Software Launching the Most Reliable Outlook.com Backup Tool

MacSonik software is introducing the best Outlook Backup Tool to backup and migrate Outlook/HotMail emails on Mac.

San Jose, California Jan 9, 2023 ([Issuewire.com](https://www.issuewire.com)) - We all know that MacSonik Software is the most premium software-providing company for Mac users. It delivers top-notch File converters, Email backup, and migration software to its users. This time MacSonik is going to launch its most dedicated and ultimate tool, namely the Mac Outlook.com backup tool. It perfectly backup and migrates emails from Live.com, Outlook.com, and MSN.com into 15+ file formats and email clients.

Backup and Migrate Outlook/HotMail Emails

The MacSonik Outlook backup tool precisely backup and migrate emails from Outlook.com, Live Exchange, and MSN.com. It performs single or multiple email backups and conversions with 100% data accuracy along with the original folder hierarchy. This HotMail Backup Tool facilitates an option to back up and migrate emails into 15+ file formats/email clients.

MacSonik Outlook.com Backup Tool

MacSonik [Outlook backup tool for Mac](#) is the most effective and multi-advanced software to back up and migrate Outlook/HotMail emails on Mac. It enables single or batch conversion of Outlook emails with or without attached files. This software is enriched with top-class features that make the entire backup/migration/conversion process smooth and effective.

- This software can bulk migrate or backup Outlook mailbox data to multiple email clients/file formats.
- It has a Preview option to view the emails/mailbox items before the conversion process.
- Mac Outlook Backup Tool offers a Date Range Filter & Mail Filter feature to easily convert emails ranging between specified dates.
- Users can also assign the custom folder name and the destination path of the resulting file.
- The HotMail backup tool quickly removes any identical emails before the backup and migration process.
- It is compatible with all the major and minor versions of Mac OS like macOS 13, macOS 12, and below.
