DIDN'T SEE THAT COMING

**WHEN HOW THEY'RE LIVING'S
NOT HOW YOU RAISED THEM**

South Gate, California Jan 10, 2023 ([IssueWire.com](https://www.issuewire.com)) - *Didn't See That Coming: When How They're Living's Not How You Raised Them* by Dr. Sharon Norris Elliott was released on January 2, 2023. This news is important to your audience because Christian parents of adult children face disappointments about the choices those grown kids are making. The parents did all they knew to do to point their children in the right direction. But they discover their adult children have developed mores and ideas very different from theirs, spiritually and emotionally knocking them off their feet. Dr. Elliott has written this book that is an oasis of consolation amid these parents' present storm.

As the writer of the foreword, Pam Farrel, has stated, this book will "bless and build bridges" in families as parents are strengthened to face, understand, and apply "care-frontation" concerning the troubling issues. Ultimately, this book will guide parents in taking their adult children to Jesus even though the problems are things they didn't see coming.
