

New Works On Exhibition By Acclaimed Glass Artist Abby Modell At Art Palm Beach 2023

Widely collected and acclaimed contemporary glass artist Abby Modell in a solo presentation at Art Palm Beach Art Fair this week & weekend January 25-29, 2023 – Booth 228 at the Palm Beach County Convention Center.

Miami Beach, Florida Jan 28, 2023 ([IssueWire.com](http://www.IssueWire.com)) - Internationally collected glass artist [Abby Modell](#)'s 'Galaxy Collection' takes the viewer on a magical journey through her three-dimensional wall art and large sculptural objects. Formations of ultra-luminous swirling stars with their infinite dimension are re-imagined by the artist as she focuses on refracted light and modern forms.

The possibility of waterfalls on other planets has inspired her featured work, 'LightWave Waterfall'. This 11' W x 7' H ombre glass assemblage combines fire-polished glass, mirror, Swarovski crystal, and glass panels in saturated pastel colors of cosmic watercolor hues. Spectacular tidal waves effortlessly cascade down a glass canvas. Also featured are works from Modell's Dichroic glass 'Starburst Collection'. As described by the artist, mesmerizing glass in mirrored and opalescent finishes uniquely defines "art that changes color." As the viewer's angle to the glass changes the color shifts. Utilizing these redefined iridescent glass characteristics, Abby Modell creates large glass canvases that mimic cosmic starbursts with their infinite reflections in the night sky.

Modell is proud to partner with a zero-waste certified sustainable glass finishing studio committed to reducing the environmental impact on our planet. By recirculating applied glass into many of Modell's pieces during their creation, the studio honors and preserves the earth and our resources.

Abby Modell is a widely collected and acclaimed glass artist. She has exhibited collections at numerous fine art fairs and galleries including upcoming Art Market Hamptons, Scope Miami, Art New York, SOFA Chicago, and Architectural Digest Design Show, NYC.

Modell's work was featured in May 2022 at the 1st International Heclectik-Art Glass Biennial in Portugal. Her work is in and has been exhibited at private homes, corporate collections, and museums, including the National Liberty Museum in Philadelphia, the world headquarters of Morgan Stanley in New York City, the Fontainebleau Hotel in Miami Beach, Canyon Ranch, Lenox, MA, and the 1st International Biennale of Santorini, Greece. Commissioned collections include Bloomingdale's Holiday Windows in New York City, Royal Caribbean International's Symphony of the Seas luxury cruise ship, and the Faberge Big Egg Hunt in New York City.
