

Now enjoy secure chatting with end to end encryption on desi social platform Bandhoo

Bandhoo marches with gaint social platforms by offering secure chatting

Farrukhabad, Uttar Pradesh Jan 8, 2023 ([Issuewire.com](https://www.issuewire.com)) - Nowadays people are more concerned with the security of their data, especially personal chatting. End-to-end encryption is considered the most secure way of chatting.

Keeping in mind the security of the user database, the famous Indian social platform Bandhoo has

offered end-to-end encrypted personal chatting. Now users can chat and no third person can read their data - not even Bandhoo team! Now if any user sends a text message, image, or audio to another user, their conversation will be end-to-end encrypted.

Bandhoo also has the distinction of offering a unique chatting experience where user can roll back their messages anytime. So now armed with encrypted chatting, the platform has become very secure. Bandhoo is mostly famous in small cities but its user base is expanding in metro cities also. People love to connect with each other in their own language.

With the presence of many global social apps, Bandhoo is holding ground with many unique features on its platform. Bandhoo offers its services in eight vernacular languages. Bandhoo is available in Hindi, Punjabi, Gujarati, Bengali, Tamil, Telugu, English, and Marathi languages so that users can connect in their own language. Bandhoo enables its users to connect with people of their choice, their language, and their region. On Bandhoo platform, users can follow their favorite figures and topics. Bandhoo offers many privacy features for women. Users can share their favorite posts directly from Bandhoo to WhatsApp. Bandhoo is taking multiple steps to keep the platform clean and family-friendly. Dirty posts are deleted as early as possible. The basic aim is to offer a clean and trustworthy platform for everyone.

Bandhoo is an Indian social platform that originated in the small town of Farrukhabad of UP. It is pure desi in the sense that only Indian people are involved in its development and management. Bandhoo application has been developed and is being managed by its own in-house team. No outsourcing is involved! Bandhoo Pvt Ltd is UP based hundred percent Indian company.

Bandhoo app for android is freely available on the Play store at the following link -
