

Royalty Events & Photobooths Introduces Audio Guestbooks to Southwest Florida

Cape Coral, Florida Jan 27, 2023 (Issuewire.com) - Royalty Events & Photobooths announces the launch of their highly anticipated audio guestbook service for weddings in Southwest Florida, reinventing the way couples receive special messages from loved ones on their special day.

Audio guestbooks are the perfect way for wedding guests to leave the couple a lasting keepsake from the most important day of their lives. Guests simply pick up the handset of a special vintage phone and listen to a personalized greeting before leaving their own loving message. The messages are recorded and stored for the couple to listen to and enjoy for years to come.

Audio guestbooks provide a unique and intimate way to relive the memories of the wedding day. Messages are typically hilarious, heartfelt, and full of nostalgia. Guests can get creative with their messages and make it a truly special moment and keepsake.

Audio guestbooks also provide the perfect opportunity to honor and remember special relatives and friends who may no longer be with us.

Royalty Events & Photobooths is proud to be the first company to bring this technology to Southwest Florida and has years of experience providing couples with top-of-the-line services for all their wedding needs.

They are a full-service, licensed, and insured DJ, lighting, and photo booth company with highly trained and professional DJs with years of radio, club, and private event experience.
