

Shipsy Logistics Sdn Bhd launches sea freight platforms

Shipsy Logistics Sdn Bhd , the local logistics company in Malaysia, today announced the launch of its services in air freight, logistic solution, chartering, and others related services.

Klang, Selangor Jan 3, 2023 ([Issuewire.com](https://www.issuewire.com)) - Shipsy Logistics Sdn Bhd, the local shipping logistics company in Malaysia, today announced the launch of its services in air freight, logistic solutions, chartering, and other related services. This new service is the first ever sea freight shipment to its client, with opening containers carrying them to all the destinations throughout the globe.

Commenting on the shipping logistics' new feature, Shipy Logistics Chief Executive Officer V Kannan said "We are constantly working to add new features that would add value to all destinations, so we are delighted to provide our clients with more benefits and ease when shipping with us. Our professional team succeeded again in reaching higher levels of travel comfort, and I thank them for achieving this goal".

The transportation alternative follows reported challenges; expensive airfreight, fragile and unreliable airfreights, and unavailable air transport systems, especially during peak holiday seasons. More information can be found on the link www.shipsy-logistics.com
