

Spyke is a upcoming DJ/Producers of Electronic Dance Music

Spyke is the moniker of Bangalore based DJ/Producer Kiran, known for his phenomenal layer of sounds and well versed in the art of entertaining dance music fans.

DJ/Producer Kiran, known for his phenomenal layer of sounds and well versed in the art of entertaining dance music fans.

After listening to Becoming Insane by Infected Mushroom is what got him hooked on to electronic dance music and furthermore, he went on embrace all kinds of genres, which influenced him to take up residencies at leading clubs in Bangalore, where he polished his skills as a DJ.

His future looks brighter day by day by spreading good vibes & addictive funky beats. His voyage slowly started to take shape with no intentions of slowing down.

Subsequently shared his Dj skills professionally with numerous students at one of the leading institutions in Bangalore

He's set to work on engaging his audience with his own music. With releases on high-profile labels such as BLVCKBOX, G-Mafia Records, and Many more, spyke has proven to be one of the most interesting upcoming DJ/Producers at this moment.

I love what I am doing now, a blend between FUNK and FUTURE HOUSE with a lot of inspiration from disco and dubstep. My sound is always evolving and changing, but I will always keep making the best music I can! You can find all of my music on [SPOTIFY](#) or on musical platforms you listen to your music!
