

The Chakra Lounge Delivers & Ships Coffee Beans, Masala Chai & Turmeric Mix across the UK

One of the most popular Indian takeaways and coffee shops in Buxton, Sheffield & Bakewell now takes orders online, and delivers traditional Indian snacks, meals, party cuisines and healthy beverages directly to homes.

Bakewell, Derbyshire Jan 31, 2023 ([IssueWire.com](https://www.issuewire.com)) - With the ever-growing popularity of health drinks, Ayurvedic Indian beverages, and unique coffee and herbal tea blends here in the UK, both among local Britons as well as migrant Asian communities, cafes have adjusted accordingly. In this context, one name that comes out late is “The Chakra Lounge” which has well-understood the taste preferences, likes, and food-specific sentiments of the local population, and brought about a whole new range of cuisines, dishes, and nutritional drinks, mostly in the form of herbal beverages, authentic coffee, tea, smoothies, and milkshakes.

What’s more, this exclusive eatery, cafe, and restaurant are now shipping the best coffee beans from Peru and India to homes in the three above-mentioned cities, apart from their unique masala chai mix packs, turmeric mix, and other coffee-making assortments at affordable and realistic price tags.

This premium [online coffee store](#) in Buxton & Bakewell now delivers some of the finest Espresso, Latte, Cappuccino, Mocha, Frappe, Herbal Tea, and Ayurvedic beverages in packs of 100 grams and more to residences. It has come as a huge relief for all customers that are ardent coffee lovers and want their favourite Indian masala chai or Espresso blend to be shipped to their doorsteps, at the same price or even less, as available in local departmental and convenience stores throughout the UK.

For example, its special Chakra Lounge Espresso Blend dark roast coffee pack of 200 grams can be bought at £8.25, whereas the Masala Chai pack of 100 grams can be bought at a competitive price tag of £7.25, which is significantly lower than any other masala tea brand in the UK. Such a variety of herbal tea and coffee blends have helped this local cafeteria in Buxton see a steady increase in demand and revenue.

When speaking to the management of the company, to be more precise, the CEO and Founder, we learned that this Indian cafeteria and food joint is fast diversifying its menus & product offerings, and going well beyond the standard cuisines, which Britons have become familiar with. In fact, when you visit their official website and [order coffee online](#), you get to see a huge variety of other products displayed on the racks. It ranges from turmeric mix packs of 100 grams to milk frothing foaming jugs, premium wooden coffee tampers, and readymade Espresso, Latte, and Cappuccino.

If credible sources are to be believed, this Bakewell & Buxton-based cafe is focusing more on online coffee sales & tea delivery to local residences, as there’s a huge demand in the region. But, this marketing idea does not come at the cost of their traditional menus, including Indian snacks, breakfasts, and meals which helped them create a strong foundation. It also offers discounts to customers who are looking to [buy masala chai online](#) in bulk on a regular basis. Here, one can contact the cafe directly to know more about the bulk prices and rates. Hope this financial year turns out to be a good one for The Chakra Lounge.
