

The Lashe® introduces their latest innovation that will surely turn heads.

The Lashe®, the professional industry leader in eyelash extensions, introduces their latest innovation that will surely turn heads. Introducing The Lashe® Fan Extensions

lash stylists wanting to graduate from pre-fanned lashes, but not yet fully proficient in the volume lashing technique to rely on a traditional lash. Also great for seasoned volume artists looking to increase their speed and proficiency.

Shorter appointments for clients

Higher price point

Short Learning Curve

Happy Clients

The Lashe® Eyelash Extension Fans Features Include:

Soft, flexible, and lightweight like a "faux mink" lash

Lighter in weight than other man-made extensions

Curl will not relax due to water, steam, heat, or sweat

Specially designed to exact a natural lash from base to tip

Lighter in weight than other man-made extensions

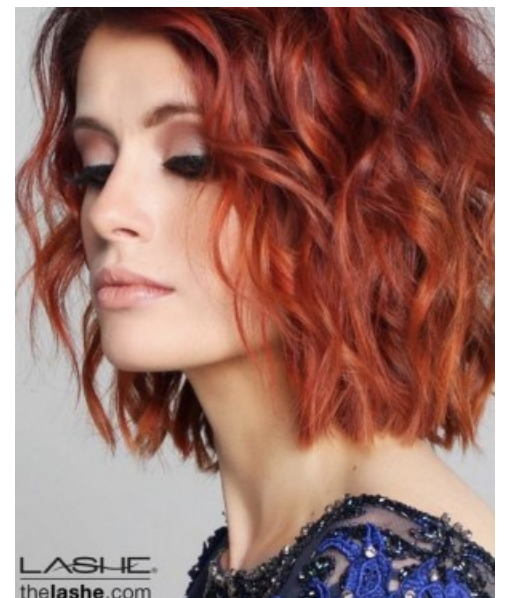

Machine cut for accuracy with stringent quality control

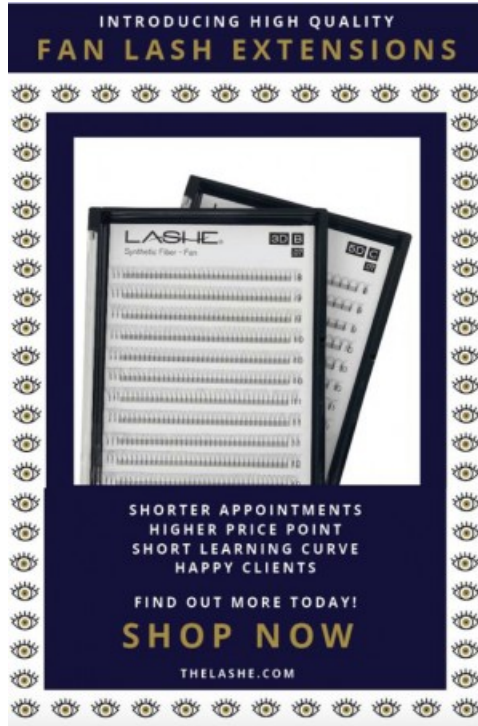

Consistent in color; keep their luster for the entire life of their wear

A perfect blend of matte and gloss without the plastic appearance

The Lashe® Inc. has been expanding its line of products for the eyelash industry since 2009. Their product line includes eyelash extension adhesives, mink and synthetic eyelash extensions, aftercare, and more.
