

You`Re In Good Hands With Driven Financial

Lake Elsinore, California Jan 30, 2023 ([Issuewire.com](https://www.issuewire.com)) - Driven Financial is a company founded in 2017 by Monica Thurman and Tomas Avalos, a duo with over 30 years of experience in the insurance industry. The company's goal is to provide top-quality life insurance and annuities brokerage services, as well as financial education to the masses.

Initially, the business was based in San Diego and quickly gained a reputation for excellence. However, when the coronavirus pandemic hit, the company had to adapt to survive. Driven Financial made the difficult decision to take agent training into a virtual space, closed their San Diego office, and moved to a “small town” in the heart of Southern California, Lake Elsinore. Although the transition was tough at first, the community of Lake Elsinore welcomed the company with open arms and they've become very active in the community.

In addition to providing excellent insurance and annuities brokerage services, Driven Financial is passionate about supporting the community. They sponsor the local water polo club and softball league, encouraging the youth to stay active and have fun. The company believes in building trust and relationships within the community and is always looking for ways to give back.

If you're looking for life insurance, 401k, pension, and TSP needs, consider Driven Financial. They look forward to serving you and helping you achieve your financial goals.
