

## Bad Monkey Popcorn Featured on Dragons' Den

**Montreal, Quebec Feb 7, 2023 ([Issuewire.com](https://www.issuewire.com))** - Bad Monkey Popcorn, one of North America's largest manufacturers of popcorn, was featured on Dragons' Den, showcasing their delicious BBQ Ribs flavored popcorn. Made with a unique combination of baby back ribs and gourmet popcorn seasoning, this dairy-free, nut-free, and kosher snack is high in fiber and has zero trans fats.

The company was founded by two brothers from Montreal, Canada, and got its name from their mother's affectionate nickname for them. Bad Monkey Popcorn is now available in over 7,000 points of sale, including popular retailers such as Dollar General, Dollar Tree, Winners, and Metro.

CEO and JMSB finance student Joey Zeppilli started the company after saving up money from a job at his father's company. He invested in the popcorn business, and with his passion and hard work, Bad Monkey Popcorn has become a well-loved brand.

According to Richard H. Davis, President and CEO of Beverage Marketing USA, Inc. "Bad Monkey

Popcorn is the perfect snack to sneak into the movie theater, smuggling Bad Monkey Popcorn into cinemas feels like a crime, but no more. It has finally been confirmed that, yes, you can officially bring your own snacks to watch films in public places.”
