

DeepLobe Selected in T-Angel's Cohort 5 Program by T-Hub

DeepLobe, one of the core products of Soulpage IT Solutions, is among the top thirteen revenue-generating startups selected to be part of the prestigious T-Angel cohort 5 100-day fundraising program.

Hyderabad, Telangana Feb 7, 2023 ([Issuewire.com](https://www.issuewire.com)) - We are thrilled to announce that our product, DeepLobe, has been selected to participate in T-Angel, a 100-day fundraising program run by T-Hub for revenue-generating startups. This program also provides startups with comprehensive support and resources to help them grow.

A total of 13 startups have been selected from 675 applications from across the country for the fifth cohort of the T-Angel program. During the 100-day fundraising program, the platform offers everything a startup needs to pitch for funding to investors, including investor pitching sessions, networking opportunities, and fine-tuning product features.

“ It’s a matter of great pride for us, to be enlisted. There has been a growing concern about the scarcity of resources, time, and costs to integrate and adopt AI applications with ease. DeepLobe is built with a vision to offer no-code Artificial Intelligence personalized to its users.

T-Hub has a reputation for fostering innovation and supporting startups, and we are honored to be part of this community of forward-thinking companies. We are confident that this program will provide us with the resources and support we need to achieve our goals and make a positive impact in the industry.

Opportunities like this will encourage startups like us to build innovative solutions at par with global standards. ” says Ramesh Damma, Co-founder, and CPO, of Soulpage IT.

As part of this program, DeepLobe will access a range of support services, including mentorship from experienced industry experts, networking opportunities with leading technology companies, and funding and investment resources. The program will provide a platform for DeepLobe to further grow and scale its impact, and showcase its innovative solutions to a wider audience.

About DeepLobe

DeepLobe is revolutionizing the way businesses leverage AI with its innovative platform that enables users to build and deploy computer vision models without any coding expertise. It has received

recognition for its cutting-edge technology and impactful solutions, and this selection is a testament to its continued commitment to delivering value to the industry.
