

Let NCH be your Registered Agent.

Does your corporation or LLC have an address where it can accept service of legal documents and notifications from the state or other governmental agencies? It's required by law.

Las Vegas, Nevada Feb 21, 2023 ([IssueWire.com](http://www.IssueWire.com)) - NCH's registered agent service is ideal for business owners who have a foreign filed business, home-based business, or for owners who are not always in their office to accept legal or state documents.

The duty of the registered agent is to accept the service of legal documents and notifications from the state or other entities. Your registered agent serves as your business' public address.

As your registered agent, NCH will act as a buffer between your business' legal matters and your physical place of business. Anyone trying to locate you or the corporation must first start with your registered agent.

Additionally, Nevada laws require that out-of-state (foreign-filed) owners of Nevada businesses maintain a Registered Agent within Nevada's borders. Let NCH be your Registered Agent and accept all official documents on behalf of your entity and forward them to you.
