

One Big Fund Establishes New Investment Fund to Capitalize on Emerging Industries

One Big Fund

New York City, New York Feb 13, 2023 ([Issuewire.com](https://www.issuewire.com)) - One Big Fund announces the launch of its new investment fund focused on the cutting-edge industries of Artificial Intelligence (AI), Fintech, Blockchain, Agriculture, and Mining. This move marks a significant milestone in the growth and expansion of One Big Fund, and a commitment to the innovation and growth of these emerging industries.

One Big Fund was founded with a clear mission - Work with ambitious founders to collaborate and build a brighter future for tomorrow's generation. With a focus on industries poised for explosive growth, One Big Fund offers founders, investors, and clients the opportunity to participate in the next generation of economic expansion.

In just six months since its establishment, One Big Fund has already achieved a significant milestone with \$7,000,000 USD in [assets under management](#) and over \$1,000,000 USD ready to commit to new ventures. This demonstrates the strong foundations One Big Fund has developed since its launch.

"We are pleased to report our strong performance in the last 7 months of operations," said Zachari Saltmer, Fund Manager of One Big Fund. "This achievement reflects the hard work and commitment of our team, as well as the trust our clients, founders, and partners have placed in our ability to seek opportunities in the blockchain space."

One Big Fund's focus on Blockchain and Fintech is a clear reflection of the growing demand for new, innovative financial solutions that will drive growth and innovation in the years to come. These industries are poised for explosive growth and are expected to become the backbone of the digital economy in the next decade.

One Big Fund is proud to be at the forefront of these developments, offering investors access to some of the most exciting and innovative companies in these industries. The fund will seek out both emerging and established companies in the private equity space, with a focus on businesses that have the potential to drive major change in their respective industries.

"It's an industry that we're excited about," said Jay Hinton, Chief Data Officer at One Big Fund. "We believe that AI has the potential to revolutionize many industries, supporting employees and employers alike and we are eager to invest in startups that are pushing the boundaries of what is possible with this technology."

One Big Fund is also closely watching the developments in AI and Agriculture, as these industries are critical to the future of food production and global sustainability. With a growing population and increasing demand for food and resources, One Big Fund believes that investing in these industries will provide investors with a unique opportunity to make a positive impact on the world.

The Mining industry is also of great interest to One Big Fund, as it is a key driver of the global economy. With a focus on responsible and sustainable mining practices, One Big Fund is committed to providing investors with access to companies that are dedicated to the responsible use of our natural resources.

The establishment of One Big Fund is just the beginning. As they continue to grow and expand, they are committed to delivering investment opportunities that are both innovative and impactful. With a focus on emerging industries and a commitment to sustainable investing, One Big Fund is poised to be a leading investment firm in the years to come.
